WALLS & FLOORS**

# Protect your stone...

Natural stone is a stunning way to tile any bathroom no matter what the size. The various shades from light refreshing creams to intense beiges transform your bathroom into a relaxing paradise. Due to the very nature of natural tiles the material always has a variance in shade as well as hundreds of open pores and capillaries that left untreated can cause staining and major decolouration.

Fortunately Better Tiles has the answer with its comprehensive range of stone care products that truly delivery stunning results.

## Master Clean your stone...

Once you have fixed your tiles in place with the recommended tile adhesive you will need to clean them using "Master Clean" before and after grouting. This removes residual natural clay dust that builds up when the stone is cut into tiles.

...for only **£9.95**

Code: 6122

## Acqua Seal your stone...

Natural stone is made up of many open pores and capillaries. This means that moisture from any adhesives used will make their way from the rear to the front of the tile. Sealing the tile prevents staining and discolouration.

...for only **£23.95**

Code: 6120

## Seal 'n' Tone your stone...

Natural stone is made up of many open pores and capillaries. This means that moisture from any adhesives used will make their way from the rear to the front of the tile. Sealing the tile prevents staining and discolouration. "Seal 'n' Tone" brings out the very best colours of natural stone.

...for only **£27.95**
