SAFETY

- This mirror should be installed by a qualified electrician.
- This fitting is only suitable for connection to a 220-240V earthed supply in accordance with current IEE wiring regulations, and should be installed in accordance with local Building Regulations.
- This is for domestic, indoor use only.
- The fitting should be connected to a dedicated lighting circuit which must be protected by a 5-amp fuse (or a 6-amp miniature circuit breaker).
- Before installing the fitting ensure the mains supply is switched off, and that the appropriate fuse is removed (or appropriate circuit breaker is switched off) before commencing installation. Ensure that measures are taken to prevent the supply from being inadvertently reconnected.
- If there is a “Minimum Distance” Label, please do not allow Flammable Materials to come within that distance from the unit.
- This product may contain delicate parts – be careful during handling and maintenance to avoid breakage.
- If any modification is made to the fitting it will invalidate the warranty and may render the product unsafe.
- A defective appliance may cause electric shock. Never switch on a defective or damaged appliance. Disconnect the appliance from the mains before seeking assistance.
- This product is IP44 rated, and no part of the installation is allowed to be within bathroom Zones 0 or 1. Installation is permitted within Zone 2.
- This product must be earthed. Before commencing installation, ensure that there are no pipes or wires located behind the wall that may be damaged during drilling.
- Ensure that the hanging location has been decided upon and marked clearly to avoid unwanted damage in the wall due to incorrect positioning.
- Check that the mirror is not damaged prior to installation.
- Take care unpacking, do not use a sharp blade to open as this may damage the mirror and void your warranty.
- Installation must only be carried out by a qualified professional or electrician.

BATHROOM ZONES

| | |
|----------------|---|
| Zone 0: | The interior of the bathtub or shower basin. |
| Zone 1: | The area around the bathtub or shower basin up to a height of 2.25m above the floor |
| Zone 2: | The area stretching to 0.6m outside the bath or shower and above the bath or shower if over 2.25m |

PARTS SUPPLIED

WALL PLUGS (X8)

SCREWS M4 (X8)

PLEASE NOTE: It is the installers responsibility to ensure that the fittings are suitable for the type of wall. Alternative fittings may be required (Not Supplied). If unsure professional advice should be sought.

TOOLS REQUIRED

TAPE MEASURE

SPIRIT LEVEL

ELECTRIC DRILL

SCREWDRIVER

HAMMER

8mm DRILL BIT

PENCIL

INSTALLATION

First of all, the mirror should be hung on the wall over the wiring. Once the mirror is installed, the shelf is added.

1. Looking at the back of the mirror, measure the distance between the fixing centres of the mounting holes.
2. Using a spirit level and a pencil mark two points on the wall separated by this distance.
3. Use the drill to make two holes.
4. Insert the wall plugs and screws.
5. Switch off power.
6. Connect the wiring to the lamp as below:

7. Hang the mirror on the screws.
8. Reconnect the power and test the product.
9. Switch the power back OFF.
10. Position the shelf in a suitable position and use a pencil to mark the corresponding screw hole positions.
11. Drill holes in the marked positions.
12. Insert the wall plugs.
13. Place the shelf over the wall plugs and fix it to the wall with the screws
14. Connect the charger to the wire on the back of the mirror.
15. Turn the power back on and test the function of the charger

PRODUCT OVERVIEW

OPERATION

When the mirror is connected and hung securely onto the wall, turn the mains power back on and the mirror will be ready to use.

Your mirror has an infrared sensor located on the side. To activate the light, charger and the demister, move your hand across the sensor once at a distance of around 5cm.

To turn the light, charger and demister off, move your hand across the sensor again.

Hold your hand in front of the sensor to change the colour temperature of the light.

CLEANING AND MAINTENANCE

Never use products containing bleach or abrasive cleaners, as these will have a detrimental effect on the appearance and lifespan of the product. Use a clean micro fiber cloth to clean the mirror.

TECHNICAL SPECIFICATION

| | |
|------------------------|--|
| Model | BeBa_27008 (white) BeBa_27009 (black) |
